Splicecom SelectVoice

UC

## The complete UC solution for fixed and mobile telephony services

SelectVoice 20 is the all-in-one Unified Communications solution that provides businesses with an extensive range of fixed and mobile telephony capabilities.

Ideal for small businesses with up to 20 users, SelectVoice 20 delivers highly featured telephony supported by Splicecom's embedded Business Management Reporting solution, Vision Reports.

For those who wish to administer the system themselves, the simple to use Admin Portal provides access to daily set up changes.

Users have a choice from the full range of Splicecom IP/SIP and analogue desk phones, PC and Smartphone Softphones, plus Wireless or DECT phones. The SelectVoice 20 Hot Desk facility enables users to work from home, or anywhere else, on their device of choice. Add call recording as an optional extra.

There's desktop integration too! SelectVoice 20 operates with Skype for Business, Outlook and leading CRM systems.

PBX System Features

IP Desk Phones

SmartPhone Softphone App

Portal Management

IP Softphone for Windows

Splicecom
SelectVoice 20
The on premise voice solution

Call Reporting

Call Recording

Live Wallboards and Dashboards

UC and CRM Integration

IP Wireless Phones

SelectVoice 20 is supplied on Splicecom's MAP-Solo platform and supports up to 20 users and 15 SIP trunks as standard. It's deployed on premise and is available to purchase on a CAPEX or monthly subscription model.

This complete UC package includes Voicemail for departments and users, Vision Call Reporting and WebPartner, a browser based phone partner app for call control and phone management.

Just choose your phones, add SIP trunks and you're good to go - it's that simple.
