

MAP Solo

The MAP Solo from SpliceCom is a flexible all-in-one voice solution that widens choice and reduces costs for smaller businesses. MAP Solo offers everything you could possibly need to deliver market leading business communications for customers', suppliers' and employees' - in a single unit.

Each MAP Solo supports up to 16 users, comes bundled with SpliceCom's S716 Soft PBX Starter Pack and SSL Gateway for secure remote connectivity and is pre-loaded with the Small Vision Business Management suite

MAP Solo for Smaller Businesses

MAP Solo delivers a sophisticated state-of-the-art voice solution supporting up to 16 users, combining IP PBX, Business Management (historical reports, call recording and real-time wallboards/dashboards) and secure voice connectivity for mobile, remote and home based employees on a single platform.

All you need to do is choose what – if anything – you want to add to the S716 Starter Pack and SSL Gateway included as standard and add the appropriate SpliceCom system licences.

IP PBX

MAP Solo is supplied pre-loaded with SpliceCom's S716 Soft PBX for smaller business. The Starter Pack includes the following system licences, all of which are supplied as standard with MAP Solo.

- 5 x IP User
- 5 x Voicemail Box
- 2 x Voice Processing Ports
- 2 x Universal Trunks
- 2 x iPCS licences (IP Softphones for Apple iOS and Android devices)

Legacy Support

In most instances SpliceCom's S716 Soft PBX will be installed in a pure IP environment, utilising PCS IP desk phones or IP Softphones running on Windows, Mac, Android and iPhone devices across SIP trunks. But MAP Solo's interoperability with all other SpliceCom system components means that SpliceCom Intelligent Gateways can be used to connect existing ISDN services and analogue phones, providing unrivalled investment protection for smaller businesses.

Small Vision Business Management

MAP Solo is supplied pre-loaded with the Small Vision Business Management suite. Just add the licences you require at any time, to activate the facilities you require. This includes Small Vision Reports, Vision Record and Vision Live wallboards

and business dashboards. A free 30-day trial version of Small Vision Reports is included with the pre-loaded Vision Business Management Suite.

SSL Gateway

MAP Solo is supplied pre-loaded with SpliceCom's SSL Gateway app for secure remote voice connectivity. Up to 16 concurrent SSL sessions can be supported.

Disk Storage

MAP Solo ships with a 250 GB hard disk drive. In addition, recordings can be stored on external drives in line with current recommended Vision Record operation.

Maximum MAP Solo Configuration

- 16 Users (5 x licences supplied as standard)
- 20 Voicemail Boxes (5 x licences supplied as standard)
- 16 SSL Connections (2 x iPCS licences supplied as standard)
- 16 Vision Reports (Small Vision Reports required)
- 15 Trunks (2 x licences supplied as standard)
- 15 Voice Processing Ports (2 x licences supplied as standard)
- 15 Vision Record Licences
- 2 Vision Live Wallboards

Warranty: MAP Solo is supplied with a 36-month warranty as standard.

Dimensions: Height: 51mm – Depth: 180mm – Width: 250mm – Weight: 1.5Kg
